# ABOUT US

*CQC Registered Ambulance  
Provider*

Quad Medical was established with one main aim: to provide our clients with unrivalled medical assistance.

Originally Quad Medical was Established to provide professional high quality care within the events industry. Being able to establish temporary medical facilities in any terrain soon became a specialism for our team. Over the past few years we have concentrated on implementing practices, processes and policies that support our field logistics. This ensures that no matter what venue or site we establish our services at, our care remains consistent and to a high standard. We have now begun to offer our unique expertise in rapid establishment of temporary healthcare facilities to NHS trusts to support them in times of unprecedented pressure.

# SERVICE QUALITY

Quad Medical Limited is a Care Quality Commission regulated company. The Care Quality Commission (CQC) are the independent regulators for health and social care in England.

Not all event medical providers are registered with the care quality commission. At Quad Medical Limited however, we work tirelessly to ensure the safety and quality of our service is upheld by maintaining CQC standards and our registration.

The Care Quality Commission regulate Quad Medical in the same way hospitals and national ambulance services across England are regulated, through regular monitoring, inspection and public publication of their findings. This ensures that we remain safe, effective and caring and maintain our practice as healthcare professionals in line with current evidence and legal guidance.

In summary this means that anyone using our services can rest assured that they have employed a professional and high quality healthcare service.

## FIELD HOSPITAL SOLUTIONS

Our fully equipped operational support vehicle has the capacity to hold two field hospitals/medical tents. This allows us to create 10 patient bays per medical tent with specially designed patient screens providing privacy and dignity for every patient.

Cardiac monitoring and observation equipment is readily available to our staff within the medical tents. With the aid of the National Early Warning Scores 2 system and clear escalation procedures, clinicians caring for patients have clear guidance on the early identification of the deteriorating patient and processes for early escalation of their care as appropriate.

# INFECTION CONTROL

Hand washing facilities and clinical waste bins are also included to allow staff to maintain good infection prevention control practices.

# DECONTAMINATION PODS

With the unpredictable nature of the pre-hospital environment, the Quad Medical team need to be prepared for every eventuality.

Quad Medical have two emergency decontamination tents which can be used not only for CBRN reasons but also as rapid portable isolation areas.

# EMERGENCY VEHICLES

Quad Medical Limited have a variety of different transport solutions including:

- Emergency Blue Light Ambulances
- 4X4 Response Cars
- City cars
- All Terrain Vehicles
- Multi patient capacity Jumbulances

These are all supported by our logistics vehicle and staff welfare support vehicle.

All of these vehicles can be used flexibly to meet the demands of our clients.

## MULTIDISCIPLINARY TEAM

---

The Quad Medical team is made up of a diverse group of multi-disciplinary professionals.

Quad Medical can provide all skill levels including; Doctors, Nurses, Paramedics, Ambulance Technicians, First Responders, First Aiders and Welfare staff.

Within our nursing team alone we have staff from Emergency Medicine, Critical care, Mental Health, Tropical Diseases, Surgical and Medical backgrounds, to name but a few.

Our First responders have all undertaken First Response in Emergency Care level 3 as a minimum and include numerous student nurses and paramedics. This pool of staff always add the most upto date and recent practices within healthcare as they are constantly exposed to the newest literature, debate and evidence base.

Our dedicated welfare team also include nurses who are specially trained in mental health as well as ambulance staff who are competent in mental health first aid.

# TRAINING SOLUTIONS

At Quad Medical we understand that in order to maintain and improve upon our services, training is essential.

Quad Medical Limited provides a comprehensive mandatory training package to our staff. All of our staff must complete and maintain:

- Safeguarding Adults & Children Level 2
- Manual handling
- Infection prevention & control
- Equality & Diversity
- Mental Capacity Act
- Fire Safety
- Conflict Resolution
- Prevent training
- National Early Warning Scores 2
- Duty of Candour
- Basic Life Support

For the public and those interested in professional development, within the pre-hospital care industry we provide high calibre accredited training at our dedicated training centre. Including First Response in Emergency Care level 3, Infection prevention and control level 2, Citizen Aid, Manual handling etc.

Our accreditation is with the awarding body Quallsafe
